

Before the storm

- | | | |
|---|--|---|
|  Download the Rick Case Hurricane Preparedness Guide |  Bottled Water (2 gallons per person per day) |  Non-perishable food (3-5 days for everyone) |
|  Have an extra supply of batteries |  Plastic dishes, eating utensils |  Pet Supplies (food, leash, carrier, vaccination records) |
|  First Aid Kit (including prescription medications) |  Bedding & Clothing for each family member if evacuating to shelter |  Soap, shampoo, other personal hygiene items |
|  Portable NOAA Weather capable Radio |  Rain Jackets, pants, waterproof boots |  Toothbrush, toothpaste & other oral hygiene items |
|  Flashlight(s) with extra batteries |  Blankets, towels if evacuating to shelter |  Important Documents (Driver's license, social security card, proof of residence, insurance policies, wills, deeds, birth and marriage certificates, tax records, medical records, family photos, albums in water tight container) |
|  Extra cash for purchases after the storm/power outage |  Baby supplies (food, diapers, medication) |  Important Documents (Driver's license, social security card, proof of residence, insurance policies, wills, deeds, birth and marriage certificates, tax records, medical records, family photos, albums in water tight container) |
|  Mobile device chargers & USB batteries to use during power outage |  Hand Sanitizer |  Sunscreen, sunglasses, mosquito repellent |

The suggested supplies above should be used as a starting point in preparing you and your family for hurricane season. Above is not all-inclusive, and each individual/family will need to determine what supplies are needed and then prepare accordingly.

After the storm safety

- | | | |
|--|--|---|
|  Avoid driving to keep roads clear for emergency vehicles |  Never place a generator inside a home or garage. Place outside, away from windows and doors |  After a flood, water may be contaminated. Disinfect water by a rolling boiling for 5 minutes or add 8 drops of bleach for gallon of water |
|  Avoid downed power lines, especially when cutting or clearing fallen trees/limbs |  Never walk or drive through flood waters. Avoid hazards that may be below the surface of the water |  Beware of wildlife driven to higher ground by flood waters |
